The double-height living area is shaped around a custom wood-and-metal staircase. The leather **Bastian** sofa and armchair are by **Mauro Lipparini** for Visionnaire and surround a walnut and marble Kings Cross coffee table, also from the brand.

OPPOSITE PAGE: Eleanora Cavalli, art director of Visionnaire, at home with her husband, the art curator Marco Morandini.

The living room extends to a biodynamic green wall filled with plants, whose roof can be opened to the air. The butterfly-shaped rug, carpet, backrest chair and marble-topped orange table with bronze coating are all by Visumaire.
