**Beauty by Visionnaire**

*Technological evolution and stylistic innovation in the wake of art design, they define the Montparnasse living proposal by Visionnaire. The main product of the living room is the **Montparnasse** sofa by **Mauro Lipparini**, made of horizontal linear volumes - that recalls modernist architecture and rationalist references - and defined by sophisticated upholstery solutions. The upper part of the backrest is extremely comfortable and turns into a headrest, thanks to an adaptable and flexible tilting system. The Lego low table and console, by Draga & Aurel, stand out for the contrasting combination of two materials, treated with different finishes: precious and "raw," the glowing gold of the metal and the matte black of the concrete. This apparent contradiction becomes a kind of unity of two different characters.*
