## Stylepark Selected Award 2024

Stylepark honors the best new products of the year with the Stylepark Selected Award 2024. We present the winners to you.

The Stylepark Selected Award has been honoring a wide range of innovations in the fields of design and architecture since 2018. The award recognizes products and concepts that are forward-looking and offer a new approach – for architects, designers, journalists and design lovers as well as for the winning company itself. The award thus offers a compact overview of current developments in the industry and serves as a guide.

**Bonaldo**  
**"Flatiron"**  
Design: *Mauro Lipparini*

**Jury statement:** With its compact form, the "Flatiron" table is perfect for designing exclusive workplaces as well as representative dining and living areas. Two sides in brushed bronze or brushed lead are asymmetrically set into an organically curved solid wood top in walnut or oak – the sculptural form of the design is accentuated by this contrast of materials, which, in the extension of the foot, fulfills not only an aesthetic but also a practical function: a recess there serves as a cable hole. With "Flatiron", Bonaldo is emphasizing its aim of offering furniture that can be used to efficiently and elegantly design working and living environments.
